

**THEA South Selmon Capacity Project #O-2225 Questions & Answers**

No.	Question	Answer	Answer Posted Date
1	Will the room that ATC Mtg. 1&2 take place in allow for a PowerPoint or PDF presentation, and will we need to provide our own computer or use THEA's equipment, or should teams be prepared for to present in a non-electronic format?	The ATC meetings will take place in the THEA Board Room which will provide for presentation of Power Point or PDF. Proposers are required to use their own computer. THEA IT representative will assist in connection.	4/1/2025
2	The current OneDrive link for accessing the RFP/Addenda documents appears to be for a folder that is accessible by all teams. Will a confidential OneDrive folder and associated link be issued to the two designated members of each team?	OneDrive will no longer be utilized. We will provide confidential SharePoint links to each proposer for submittal of proposals and other materials. This will be addressed in an upcoming Addenda. Please email Procurement@tampa-xway.com, Subject O-2225 South Selmon Capacity Project Information Access, with names of the two individuals your team would like to have access.	4/1/2025
3	During the Mandatory Preproposal meeting the response to a question indicated that a 2nd person from each team could be given access to the OneDrive link for accessing the RFP/Addenda documents. How should the request be made to THEA with the 2nd person's contact information?	See Answer #2.	4/1/2025
4	When do you anticipate releasing all the design exceptions and variations to the teams?	Approved design exceptions and variations will be provided via Addenda when available, with the intent that this be completed prior to ATC #2.	4/1/2025
5	Are the questions from all the teams going to be made available to everyone?	Yes, all questions received from proposers will be posted in a question and answer document.	4/1/2025
6	Will the load ratings of all bridges be required to meet the requirements of the current FDOT Load Rating Manual at the completion of the project?	Yes, load ratings shall be performed at all bridges and will be required to meet the criteria of the current FDOT Load Rating Manual at the completion of the project. The previous design variations from the existing load ratings are anticipated to be included in the final load rating documentation to be submitted for THEA's review and approval.	4/1/2025
7	Will there be an option for a teams invite for any remote presenters?	No.	4/1/2025
8	What AV setup options will be available at the meeting for presenters?	See Answer #1.	4/1/2025
9	Is there a cap on the number of presenters?	No, but please be mindful of time limits.	4/1/2025
10	Can you confirm the OneDrive upload location for the ATC presentations?	See Answer #1.	4/1/2025
